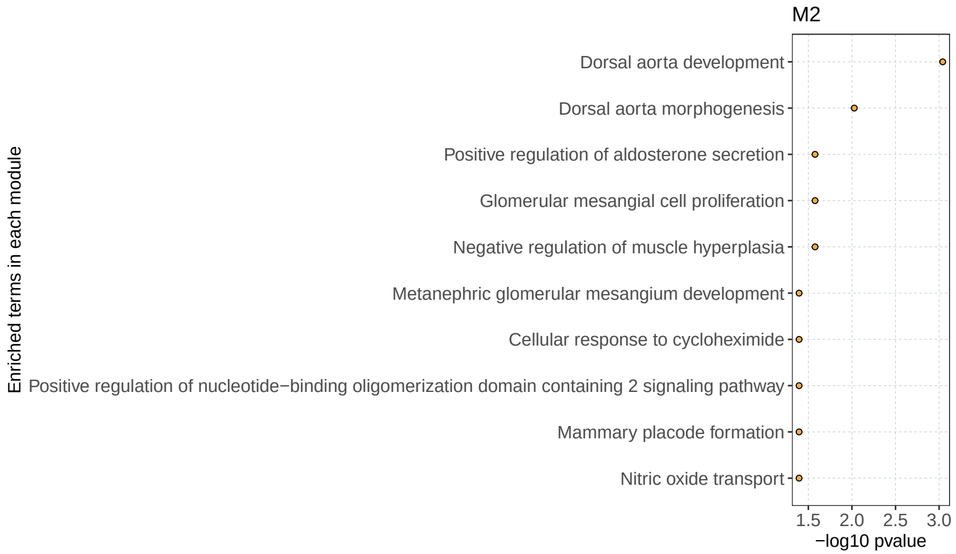
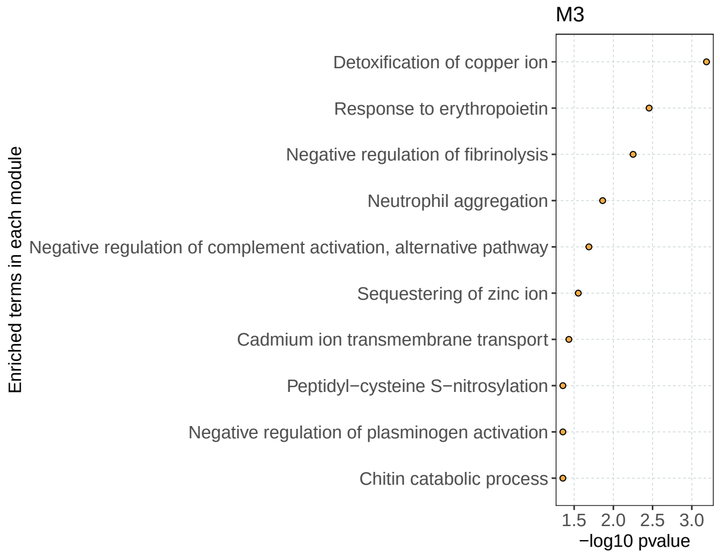
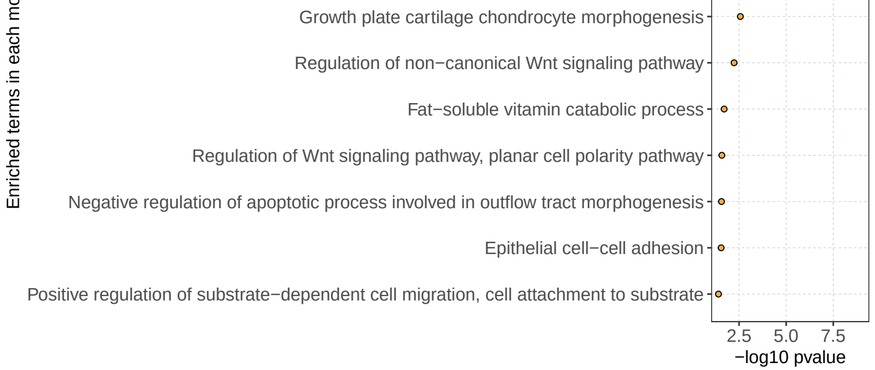
M1
Spontaneous synaptic transmission
Spontaneous neurotransmitter secretion
Hindbrain maturation
Neurofilament cytoskeleton organization
Neurofilament bundle assembly
Pons maturation
Secretory granule maturation
Presynaptic dense core vesicle exocytosis
Exocytic insertion of neurotransmitter receptor to postsynaptic membrane
cGMP catabolic process
2 3 4 5 6
−log10 pvalue
Enriched terms in each module



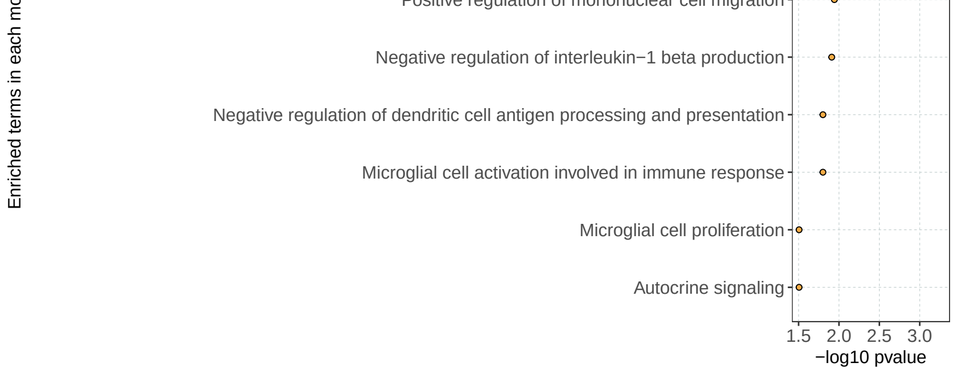
M2
Dorsal aorta development
Dorsal aorta morphogenesis
Positive regulation of aldosterone secretion
Glomerular mesangial cell proliferation
Negative regulation of muscle hyperplasia
Metanephric glomerular mesangium development
Cellular response to cycloheximide
Positive regulation of nucleotide−binding oligomerization domain containing 2 signaling pathway
Mammary placode formation
Nitric oxide transport
1.5 2.0 2.5 3.0
−log10 pvalue
Enriched terms in each module



M3
Detoxification of copper ion
Response to erythropoietin
Negative regulation of fibrinolysis
Neutrophil aggregation
Negative regulation of complement activation, alternative pathway
Sequestering of zinc ion
Cadmium ion transmembrane transport
Peptidyl−cysteine S−nitrosylation
Negative regulation of plasminogen activation
Chitin catabolic process
1.5 2.0 2.5 3.0
−log10 pvalue
Enriched terms in each module



M4
Collagen fibril organization
Keratan sulfate catabolic process
Keratan sulfate biosynthetic process
Growth plate cartilage chondrocyte morphogenesis
Regulation of non−canonical Wnt signaling pathway
Fat−soluble vitamin catabolic process
Regulation of Wnt signaling pathway, planar cell polarity pathway
Negative regulation of apoptotic process involved in outflow tract morphogenesis
Epithelial cell−cell adhesion
Positive regulation of substrate−dependent cell migration, cell attachment to substrate
2.5 5.0 7.5
−log10 pvalue
Enriched terms in each module



M5
Positive regulation of microglial cell migration
Regulation of antigen processing and presentation
Positive regulation of mononuclear cell migration
Negative regulation of interleukin−1 beta production
Negative regulation of dendritic cell antigen processing and presentation
Microglial cell activation involved in immune response
Microglial cell proliferation
Autocrine signaling
1.5 2.0 2.5 3.0
−log10 pvalue
Enriched terms in each module
