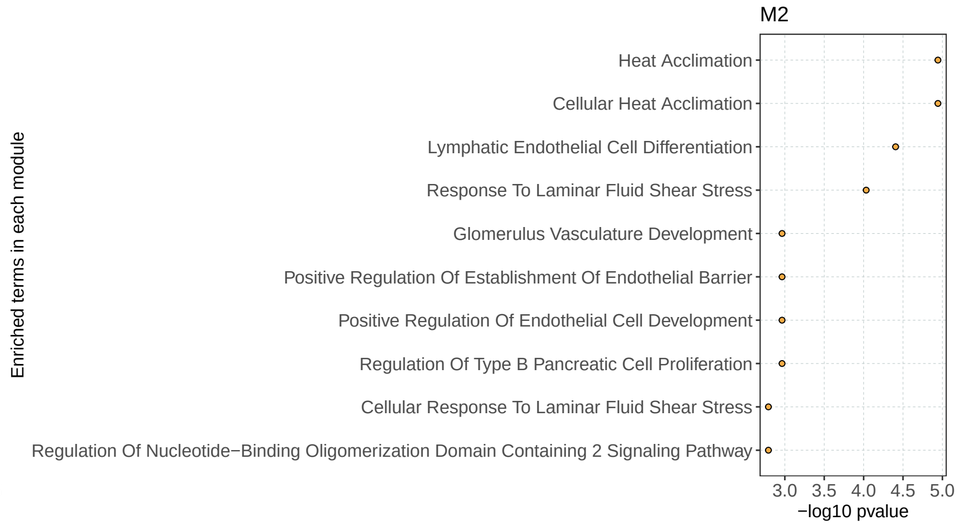
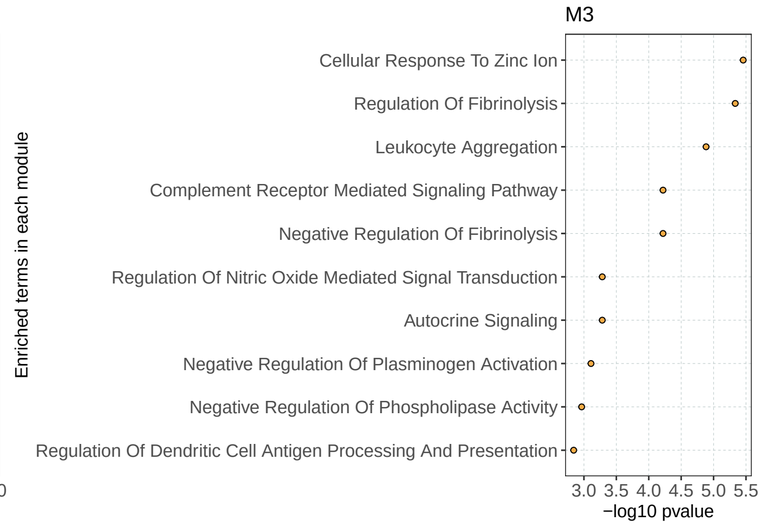
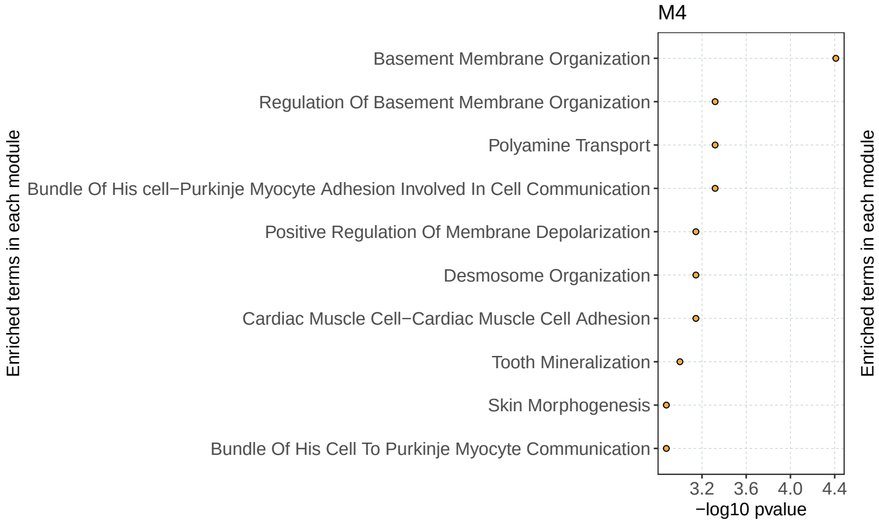
M1
Calcium−Ion Regulated Exocytosis
Calcium Ion−Regulated Exocytosis Of Neurotransmitter
Spontaneous Synaptic Transmission
Regulation Of Short−Term Neuronal Synaptic Plasticity
Synaptic Vesicle Docking
Regulation Of Voltage−Gated Sodium Channel Activity
Intermediate Filament Bundle Assembly
Regulation Of Cilium Beat Frequency
Regulation Of Transmission Of Nerve Impulse
Axonemal Central Apparatus Assembly
2.5 5.0 7.5 10.0 12.5
−log10 pvalue
Enriched terms in each module



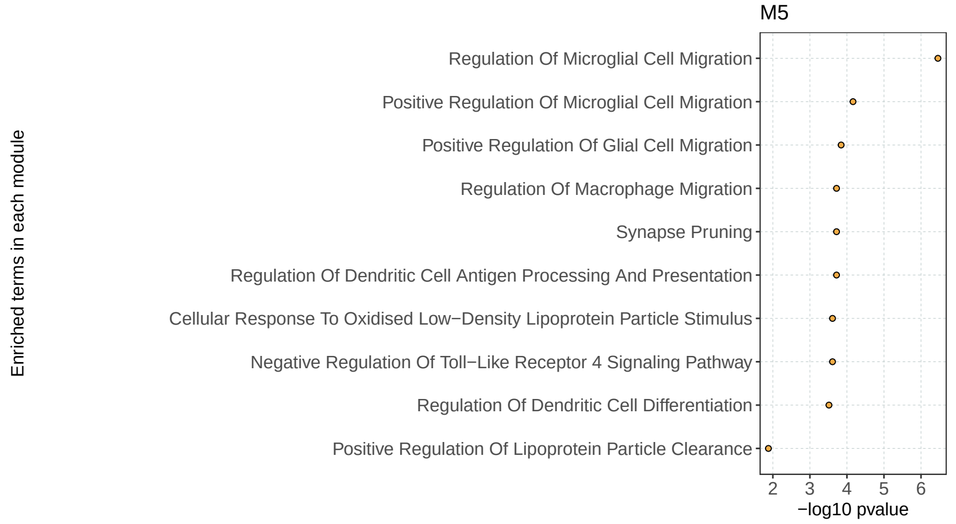
M2
Heat Acclimation
Cellular Heat Acclimation
Lymphatic Endothelial Cell Differentiation
Response To Laminar Fluid Shear Stress
Glomerulus Vasculature Development
Positive Regulation Of Establishment Of Endothelial Barrier
Positive Regulation Of Endothelial Cell Development
Regulation Of Type B Pancreatic Cell Proliferation
Cellular Response To Laminar Fluid Shear Stress
Regulation Of Nucleotide−Binding Oligomerization Domain Containing 2 Signaling Pathway
3.0 3.5 4.0 4.5 5.0
−log10 pvalue
Enriched terms in each module



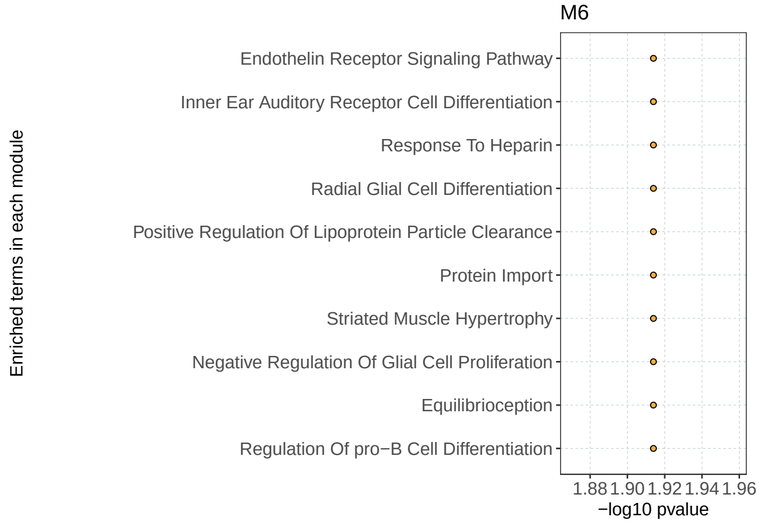
M3
Cellular Response To Zinc Ion
Regulation Of Fibrinolysis
Leukocyte Aggregation
Complement Receptor Mediated Signaling Pathway
Negative Regulation Of Fibrinolysis
Regulation Of Nitric Oxide Mediated Signal Transduction
Autocrine Signaling
Negative Regulation Of Plasminogen Activation
Negative Regulation Of Phospholipase Activity
Regulation Of Dendritic Cell Antigen Processing And Presentation
3.0 3.5 4.0 4.5 5.0 5.5
−log10 pvalue
Enriched terms in each module



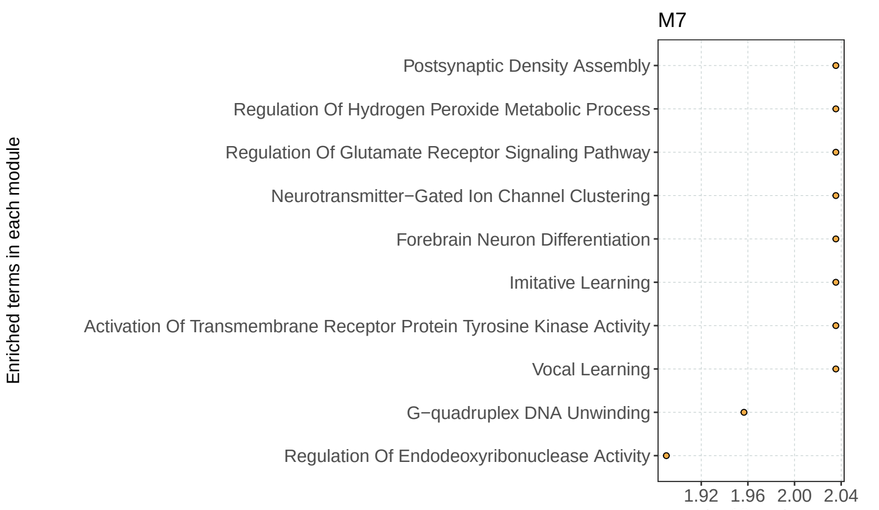
M4
Basement Membrane Organization
Regulation Of Basement Membrane Organization
Polyamine Transport
Bundle Of His cell−Purkinje Myocyte Adhesion Involved In Cell Communication
Positive Regulation Of Membrane Depolarization
Desmosome Organization
Cardiac Muscle Cell−Cardiac Muscle Cell Adhesion
Tooth Mineralization
Skin Morphogenesis
Bundle Of His Cell To Purkinje Myocyte Communication
3.2 3.6 4.0 4.4
−log10 pvalue
Enriched terms in each module



M5
Regulation Of Microglial Cell Migration
Positive Regulation Of Microglial Cell Migration
Positive Regulation Of Glial Cell Migration
Regulation Of Macrophage Migration
Synapse Pruning
Regulation Of Dendritic Cell Antigen Processing And Presentation
Cellular Response To Oxidised Low−Density Lipoprotein Particle Stimulus
Negative Regulation Of Toll−Like Receptor 4 Signaling Pathway
Regulation Of Dendritic Cell Differentiation
Positive Regulation Of Lipoprotein Particle Clearance
2 3 4 5 6
−log10 pvalue
Enriched terms in each module



M6
Endothelin Receptor Signaling Pathway
Inner Ear Auditory Receptor Cell Differentiation
Response To Heparin
Radial Glial Cell Differentiation
Positive Regulation Of Lipoprotein Particle Clearance
Protein Import
Striated Muscle Hypertrophy
Negative Regulation Of Glial Cell Proliferation
Equilibrioception
Regulation Of pro−B Cell Differentiation
1.88 1.90 1.92 1.94 1.96
−log10 pvalue
Enriched terms in each module



M7
Postsynaptic Density Assembly
Regulation Of Hydrogen Peroxide Metabolic Process
Regulation Of Glutamate Receptor Signaling Pathway
Neurotransmitter−Gated Ion Channel Clustering
Forebrain Neuron Differentiation
Imitative Learning
Activation Of Transmembrane Receptor Protein Tyrosine Kinase Activity
Vocal Learning
G−quadruplex DNA Unwinding
Regulation Of Endodeoxyribonuclease Activity
1.92 1.96 2.00 2.04
−log10 pvalue
Enriched terms in each module
