Down −> up proteins

Downregulated −> upregulated terms from GO:BP

Lipid metabolism
RNA metabolism
Intracellular signal transduction
Intracellular transport
Autophagy
Mitochondria
Protein localisation
Carbohydrate metabolism
Protein modifications
Synaptic transmission

2 3 4 5 6

−log10 pvalue

direction down−>up

Up −> up proteins

Upregulated −> upregulated terms from GO:BP

Inflammation
Microtubules
Nucleic acid metabolism
Immune response to antigens
Intracellular transport
Cell membrane
Axon guidance
