Interpro domain signature frequency
P−loop containing nucleoside triphosphate hydrolase
Protein kinase−like domain superfamily
Protein kinase domain
Protein kinase, ATP binding site
Serine/threonine−protein kinase, active site
Immunoglobulin−like fold
WD40−repeat−containing domain superfamily
WD40/YVTN repeat−like−containing domain superfamily
Immunoglobulin−like domain superfamily
Immunoglobulin−like domain
MHC class I−like antigen recognition−like
Immunoglobulin C1−set
Immunoglobulin/major histocompatibility complex, conserved site
MHC class I alpha chain, alpha1 alpha2 domains
Leucine−rich repeat domain superfamily
Leucine−rich repeat
WD40 repeat
Zinc finger, RING/FYVE/PHD−type
Vacuolar (H+)−ATPase G subunit
Papain−like cysteine peptidase superfamily
domain signature
